

New Shop Setup Sheet

LocalBrew-Dev · Your shop's own app, built from this one form · takes ~30–45 minutes

Fill this out once, return it with your logo and menu attached, and we build your entire app from it — usually live within a week or two. Skip anything you're unsure of; we'll cover it on our kickoff call.

Remember: billing doesn't start until your app is live.

1 · Shop basics

Shop name, exactly as it should appear in the app: _____

Street address: _____

Owner name: _____ Cell: _____

Best email: _____ Time zone: _____

Local sales tax rate: _____ % (ask your bookkeeper if unsure — it's on any receipt you print)

2 · Your brand

Your app carries your identity — this is what makes it YOURS and not a generic template.

☐ Logo attached (email the highest-quality version you have — the original file from whoever designed it is ideal)

Your two main brand colors (or write "match our logo"): _____

Optional tagline shown under your name: _____

3 · Menu

Attach your current menu (photo of the board is fine!) — or fill the table. Include EVERY item you want orderable in the app.

☐ Menu attached ☐ Filled in below (continue on the back if needed)

Item name	Category (Espresso / Cold / Tea / Bakery...)	Base price	Sizes? (S/M/L + price difference)

Milk options you offer + upcharges (e.g., oat +\$0.75): _____

Extras + prices (extra shot, syrups...): _____

☐ Real photos of our drinks/pastries attached (optional — we create professional images for anything you don't have)

4 • Hours

	Mon	Tue	Wed	Thu	Fri	Sat	Sun
Open							
Close							

The app automatically stops taking orders when you're closed.

5 • Rewards program (your rules)

Stars earned per \$1 spent: _____ (most shops: 2)

Stars needed	Reward
	e.g., free drip coffee (typical: 50 stars)
	e.g., free pastry (typical: 100)
	e.g., any handcrafted drink (typical: 150)

Weekly deals to show in the app (check any): ☐ Double-star day: _____ ☐ Happy hour: _____ ☐ Birthday drink Other: _____

Sell digital gift cards in the app? ☐ Yes (\$10/\$25/\$50) ☐ No

Old punch cards? ☐ Yes — we'll help you convert them to stars at launch (great for adoption)

6 • Your counter setup

Device that will show incoming orders: ☐ iPad ☐ Android tablet ☐ Computer ☐ Spare phone

Choose a 4–6 digit staff PIN for your dashboard: _____

Number of staff joining the 30-min training video call: _____

7 · Stripe — how your app takes payments (10 min)

Stripe deposits your app sales straight into YOUR bank account daily, like your card machine. We never touch your money and take 0% of sales.

1. Go to **stripe.com** → Sign up. Use your business email.
2. Complete "Activate your account": business info, EIN or SSN, and the bank account where deposits should land. (~10 min; approval usually same-day.)
3. Then give us access **one** of these two ways:

Option A — invite us (recommended, most secure)

In Stripe: click the **gear icon (Settings)** → **Team** → **+ New member** → enter _____@_____ (we'll give you our email) → role: **Developer** → Invite.
Done — we securely retrieve what we need, you can remove us anytime.

Option B — send the key via self-destructing link

In Stripe: **Developers** → **API keys** → **Secret key** → **Reveal** → copy the code starting with **sk_live_**. Then go to **onetimesecret.com**, paste the key, click "Create a secret link," and text/email us THE LINK. It self-destructs after we open it once.

Never put the key itself in a plain email or text — only the one-time link. Anyone with that key could act on your Stripe account.

8 · Square — connect your register (only if you use Square)

This is what makes counter purchases earn rewards automatically and puts app orders on your existing register. ~10 clicks, or we do it together on a quick screen-share call — just check the box below.

☐ We use Square ☐ We don't use Square (skip this section) ☐ We use Square — **let's do this part on a call**

1. Go to **developer.squareup.com** → click **Sign in** (top right) → use your normal **Square login**.
2. Click **+ (Create your first application)** → name it "[Your shop] Rewards" → agree → Create.

3. Inside the app page, find the **Sandbox / Production** toggle near the top → switch to **Production**.
4. Under **Credentials**, find **Production Access Token** → click **Show** → copy it.
5. Send it to us the same safe way: paste into **onetimesecret.com** → send us the link (never the token itself in plain text).
6. Also tell us your **location name** as it appears in Square (bottom of this sheet).

Square location name (if more than one, which gets app orders):

9 · Send it back

Email this sheet + logo + menu (+ photos) to:

_____@_____

Keys/tokens: **one-time links only** (Section 7–8).

What happens next: we build your app (3–5 days) → you get a private preview link to click through → 15-min payment test call (we place a real \$3 order and refund it while you watch) → 30-min staff training video call → your QR signs ship to the shop → LAUNCH. Billing starts that day, not before.

Questions while filling this out? Call/text: _____ — a human answers.
